

KVS Information Systems, Inc.

Total Solutions For Government

GENERAL RECEIPTS

The **KVS General Receipts** system provides complete control over municipal revenue collection. Over-the-counter or miscellaneous receipts are entered, tracked and reported upon.

Integration with Centralized Collection and General Ledger provides on-line posting of all revenue transactions resulting in a concise audit trail.

Whether for use in a Centralized or Decentralized environment, General Receipts is comprehensive and facilitates complete control and audit reporting of all entries and activities.

**General Receipts Integrates
with
General Ledger
&
Centralized Collection**
