## **PAYROLL/ PERSONNEL**

The **KVS Payroll/Personnel** system is a comprehensive municipal payroll system. It will provide complete control over Payroll as well as Personnel functions. Payroll by exception minimizes data entry and error. All pay scenarios and calculations are controlled through table driven entries of rates, descriptions and codes.

The system accommodates both Centralized and Decentralized functionality supporting time recording and employee file updating remotely.

Pay increases can be automated by assigning job class, grade, and position controls. Security features ensure data integrity throughout the system.

**Payroll/Personnel Integrates with  
General Ledger, Accounts Payable,  
Budget Preparation, Attendance,  
Payroll Projection & Position  
Control Systems**
