

## **Permits, Inspections & Code Enforcement**

The KVS Permits, Inspections & Code Enforcement System is designed for comprehensive and accurate tracking of permits, inspections and code enforcement activities.

The Permits, Inspections & Code Enforcement system provides complete tracking of all steps in the permit process from application to final inspection and Certificate of Occupancy issuance.

All fees are calculated automatically and all payments are made through the KVS Collection system. The system is integrated with COMPASS (Property Administration) for automatic retrieval and entry of owner name and address, property location, parcel ID, and property class. The extensive contractor file includes storage of all licensing and insurance information for each contractor.

**Permits, Inspections & Code Enforcement Fully Integrates With Compass (Property Administration), Accounts Receivable, General Ledger & Collections**

## **SYSTEM OVERVIEW**

**GRAPHICAL USER INTERFACE (GUI)**

**TABLE DRIVEN CODES**

**ACCESSIBLE BY:**

- PERMIT NUMBER
