

The **KVS Real Estate Tax Billing** system is designed to manage municipal tax billing and collection associated with School and Real Property taxes. Property tax bills are system generated with an update into our Centralized Collection system. Tax rolls, special assessments and other one-time charges can be generated and placed onto tax bills. KVS can upload municipal assessment files from a variety of sources. The system also offers integration into the KVS Assessment Administration System (COMPASS) for data maintenance and updating.

## System Highlights

**ACCEPTS INSTALLMENT PAYMENTS**

**GENERATES AND PRINTS ALL TAXES ON ONE BILL**
